

SMETA 4-pillar certification

Dear customer,

Sedex does not hand out literal certificates for companies who are SMETA certified. You can confirm DECA's compliance to the SMETA norm via your company's Sedex account.

The screenshot shows the Sedex ADVANCE interface. At the top, there's a navigation bar with 'Home', 'Company', 'Audit', 'User', 'Member Directory', 'Analytics', and 'e-Learning'. A search bar is also present. Below this, the 'My Audits' section is active, displaying a filter form and a table of audit results.
